

# TILTH GROWS SEED!

This is what we're all about at Taeges! Our flexible tyne and vibrating tips give you excellent penetration.

**MORE EFFICIENT.  
BETTER YIELD.  
MORE CHOICE.  
BETTER QUALITY.**

"When I needed to drill rough, steep, stony hill country, some which has never been drilled before or had a tractor over it; the Taege 3m air has proved itself invaluable, for the contour following of a solid 3m drill, with the hill accuracy of air.

It slotted in beautifully, being smaller in size made it easy to pull without the need to upgrade my tractor, It gave me versatility and accuracy, particularly on the hills. It also meant I didn't have seed shelving issues, which is important with very low seeding rates of winter and summer brassica crops."

ROSS COLLIER

## Taege Airseeders

- Available 3m, 3.4m or 3.6m
- 25 tynes over 3m, 27 tynes over 3.4m and 29 tynes over 3.6m giving 121mm spacings
- 700 litre hopper
- Patented live tyne angle giving you excellent penetration and trash clearing
- Ability to drill around corners
- Contour following for sloping or uneven ground
- Full complement of upgrades to suit your individual requirements
- Phasing Ram system used to give even depth of seed planting
- Simple construction, less moving parts reduces down-time, repair and maintenance costs

**Great value, great results – you be the judge!**

**Tall distributor tower** enables seed to run correctly on the top side of the hill.

**Very flexible 'S' Tynes.** Set on a patented angle combined with Taege 3-piece boots and hard wearing narrow tungsten faced tips is a vastly different set up to other tyne drills.

# Airseeders

## 300, 340 and 360 series

**Computerised sponge metering system** is standard on all models which provides fast, easy and accurate calibration without the risk of seed damage.
